## **Development of Human Elements for Quality Works**

**A. N. Pandey**

ISNT, Kalpakkam Chapter

### **Abstract**

Now a days, Management Executives are trying to harness the "Human Elements" so that the efficiency of the human related works and out put of a plant can be increased.

The talk differentiates between the vital organ "Brain" and metaphysical aspects of "Mind" in order to achieve the clarity while dealing with human resources. The talk also differentiates between the minds of a materialistic person, who has achieved all round success in the society and a spiritually developed person. The talk provides a scientific analysis of the elements present in four faculties of mind and how they are to be harmoniously balanced. The evaluation process of mind and understanding the Quality of works required in the society are covered in the talk.

The talk is framed under Vedantic principles with a logical analysis to achieve the goal "The development of Human factors/ elements" of the intellectuals.
